northwindstech.com

In 2019, multiple Delta Dental Member Companies (DDMC) partnered to create NorthWinds® with the goal of providing market-leading technology products and services for dental and ancillary insurance payers.

NorthWinds employs about 300 professionals who possess deep expertise in dental insurance technology, with an average tenure of 10 years.

We develop innovative and secure technology that helps insurance companies effectively manage their core administrative processes.

Keyspring, our flagship product, consists of secure, cloud-based applications that integrate best-in-class dental and ancillary insurance processing into a highly configurable and user-friendly platform.
